October 4: 10 am - 4 pm

October 5: 10 am - 4 pm

Tuition: \$595.00

Early bird tuition \$550.00 (if paid by August 31st)

Tuition includes light evening fare the first day, featuring locally grown and organic fare.

Didactic materials for future reference and study provided.

Join us on a beautiful 1000-acre ranch in Tomas for a 3-day experiential leadership program designed to inspire curiosity and deliver practical tools with the assistance of collaborative human and equine educators. This unique, cutting edge program is designed for business owners, managers, mothers, fathers, mentors, teachers, caretakers and anyone who wants to make a difference.

Leadership does not exist in a vacuum, it occurs in relationship to something or someone. On a personal level, the relevance may be taking right action towards creating meaning and purpose. In organizations, the necessity is about leading others towards a unity of purpose and shared vision. Studies show that over 80 % of our communication is non-verbal, which includes mood, trust, intuition and listening. Horses have an uncanny ability to reflect back how effectively (or not) we are being in these non-verbal states. Horses are influential teachers for us in the realms of leadership, offering a refreshing and non-judgmental way for learning new processes for overcoming obstacles, achieving goals, ambitions and dreams. By partnering with horses and practicing focused *attention* to our *intention*, we step into the fertile ground of learning and developing ourselves.

### Participants will learn to:

- Identify unique leadership styles
- Discover strengths & opportunities
- Practice self-responsibility
- Overcome obstacles
- Learn to read energetic cues
- Shift from being stuck to taking action

Limited to 12 participants.

To register: e-mail [office@medicinehorseranch.org](mailto:office@medicinehorseranch.org) or phone Alyssa at 707-878-2440.

Directions and logistics provided at time of enrollment.
